

CHILDREN'S THERAPY CENTER

**IMPACT
REPORT
2025**

Hello from our CEO

Nichelle Brown, Chief Executive Officer

“

*"If your child has a disability, confirmed or not confirmed, we want you to be able to come to Children's Therapy Center, and **we want to be a bridge.**"*

*We want to help you get across **every opportunity, obstacle and advocacy** you may need.*

*We want to make sure that we can be **with you all the way**, so you don't get lost.*

”

Party with a PURPOSE

Experience and Learn about CTC through dynamic and engaging program displays.

Listen. Eat and Drink! Our Live DJ will be spinning hits while you enjoy a generous spread of tasty bites, drinks and treats.

Enter to win! Raffle with multiple prizes.

Give with your heart. Opportunities to engage, support and make an impact.

Follow us on social media to receive event updates.

Early Child Developmental Services

Early Child Developmental Services offers resources for young children. It houses our Early Support for Infants and Toddlers (ESIT) program, which provides resource coordination and individualized therapy services to children from birth to three and their families. Our team collaborates with families through family-centered coaching and holistic services to help parents meet their child's needs. Services are tailored and provided in the homes of our families.

“

*The Center for Disease Control reports that developmental disabilities impact **1 in 6 children** in the United States*

Without proper support and attention from caregivers, a child's brain development is stunted, early learning is hindered, developmental milestones are missed, and a child can suffer from preventable disabilities, illnesses and educational success.

Family Resource Navigation

Our Family Resource Navigation program moves with the family. Strategically designed to help families, up to age 18, navigate the transitions. Services are customized to meet the needs of each family; recognizing growth and development continues through adolescence.

Supportive services and valuable resources can change a child's developmental path improving outcomes for children, families, and our communities.

"You're helping us navigate a tough situation and assuring us we're not alone. We just really, really appreciate you."

"Everything is focused on the child, but it's really for the caregiver."

"My son is more social, and makes more effort to speak during KPL than in any other program or speech therapy session we have been to."

Kaleidoscope Play & Learn

At Children's Therapy Center, Kaleidoscope Play & Learn is intentional, inclusive, and rooted in child development through play.

Located across three Children's Therapy Center sites, you'll find equitable and adaptive environments where children, up to age five, can engage, explore, and thrive, regardless of ability. From shallow water play for sensory needs to spaces that promote communication and movement for mobility-limited children, every detail is designed with developmental purpose and school-readiness in mind.

IMPACT

— “ —

With Children's Therapy Center I have the resources to help take my daughter higher. Now we're not just "hanging on a cliff."

Janelle, CTC Mom
